"Man of Conquest"

ASK UNITED ACTION

Liberals of the new Pincher Creek Crows' Nest Pass provincial constituency, meeting at Lundbreck on Wednesday evening, passed a resolution to the effect that it is in the best interests of Liberals that a committee be named and given authority to meet all other political groups opposed to Social Credit government, to invite delegates to a convention at some future date for the purpose of nominating a candidate under a name satisfactory to the convention. That committee is composed of the president, vice-president and secretary.

The meeting was attended by upwards of 150 men and women from all parts of the constituency.

Mr. D. H. MacLean, general manager of Dominion Coal Mines in Picot County, Nova Scotia, accompanied by Mrs. MacLean, are visiting in Coleman and Vancouver. While in Coleman they are guests of Mr. and Mrs. J. O. C. McDonald. Mrs. MacLean is Mr. McDonald's sister.

A few years ago The Enterprise published a book, size about 2x3 with forty pages, which was fully capable of carrying the history of the Alberta government's achievements of the past four years. There was no need for that big four-foot book except as a means of leading the blind.

POLICE CHECK ON RECKLESS DRIVERS

War on the reckless driver has been declared by the R. C. M. P.

With main highway surfacing extended in various parts of the province, there has been an increased tendency to speed, thus aggravating the traffic problems.

Now, according to officials of the Alberta Motor Association, police are taking definite action to curb dangerous driving. Recently there have been many reports of police also checking up cars which were violating the law through not having proper head or tail-lights, or were contravening regulations in other respects.

Safety on the highways is strongly advocated by the A.M.A., which has given full support to local efforts designed to lower the accident toll in this province.

In the interests of all who use the main highways with full regard to the requirements of safety, the move to stamp out reckless and dangerous driving in this province will receive the general support of all fair-minded citizens.

WORLD'S LONGEST 'PHONE

A British firm has just shipped to Russia the last consignment of equipment for the world's longest carrier telephone system, which will run for nearly 9,000 kilometers (about 6,000 miles), crossing Siberia and covering practically the entire breadth of the U.S.S.R.

It will give direct communication between Moscow and Khabarovsk, which is near the Manchukuo border, north of Vladivostok; this enormous distance will be covered by an open wire line, divided into five links of 2,117 kilometers, 1,443 kilometers, 1,867 kilometers, 290 kilometers and 2,414 kilometers, respectively.

Specially designed transmission apparatus which will make it possible to operate several telephone and telegraph circuits simultaneously, and, in addition, a channel for broadcasting, or picture transmission, are included in the contract.

Standard Telephones and Cables Limited, of London, were given the contract for the work, at a figure exceeding \$300,000.

At a recent meeting of the Drumheller city council, objection was raised to a shipment of gravel coming in from Calgary by C.P.R., and a resolution was passed to the effect that any shipment coming from any point in which both railways operate should be made by Canadian National Railways as Drumheller was definitely a C.N.R. point.

LIKELY TO SECURE MOTOR AMBULANCE

At a fairly well attended meeting in the Sartoris' hall on Tuesday evening, the general opinion was expressed that in the matter of up-to-date ambulances Blaimore should not lag behind.

The meeting was presided over by William Knight, ex-mayor, while Robert Oakes acted as secretary.

A working committee was appointed to interview business and professional men, and other parties or organizations that may become interested. That committee was made up as follows: Mayor E. Williams, representing miners; T. J. Williams, representing outside men; L. L. Morgan, representing business and professional men, and C. Poch, for the village of Frank. That committee will meet soon and formulate plans of campaign.

Coleman recently undertook a similar campaign, as a result of which Coleman now has a modern motor ambulance. It is to be hoped that the efforts being put forward here will be similarly blessed.

EARLY FALL TRAVEL BAR-GAINS TO EASTERN CANADA

Early-fall vacationists will have an opportunity to enjoy a trip to Eastern Canada at bargain fares over the Canadian Pacific Railway from September 15 to 29 inclusive, according to an announcement by Mr. Passmore, local ticket agent for the company.

Tickets will bear a 45-day return limit, similar to the spring trip, and permit stopover at stations Winnipeg and east.

Three classes of tickets will be offered—coach, tourist or standard; the latter two being in sleeping cars of class designated, upon payment of usual berth charge. Canadian Pacific transcontinental trains provide every modern convenience—air-conditioned coaches, tourist and standard sleeping cars, dining and observation; with special tray service from dining car for the convenience of coach and tourist sleeping car passengers.

Mr. Passmore has full particulars, and will be glad to give interested parties complete information.

ELECTORAL BOUNDARIES OF THE PINCHER CREEK CROWS' NEST RIDING

Following is copy of the act as passed:

Electoral Division of Pincher Creek Crows' Nest, the boundary whereof is as follows: Commencing at the northeast corner of township 13, range 30, west of the 4th meridian; thence south along the meridian between ranges 29 and 30, to the northeast corner of township 8, range 30, west of the 4th meridian, thence east along the north boundary of township 8, range 29, west of the 4th meridian, to the northeast corner of township 8, range 29, west of the 4th meridian; thence south along the meridian between ranges 28 and 29 to the northeast corner of township 4, range 29, west of the 4th meridian; thence west along the north boundary of township 4, ranges 29 and 30, west of the 4th meridian, and ranges 1 to 4 inclusive, west of the 5th meridian, to the intersection with the inter-provincial boundary of Alberta and British Columbia; thence northerly along the said inter-provincial boundary to the intersection with the north boundary of township 13, range 6, west of the 4th meridian; thence east along the north boundary of township 13, ranges 6 to 1 inclusive, west of the 5th meridian, and range 30, west of the 4th meridian, to the point of commencement.

It is now predicted that Albertians will get their first dividends when the New Democracy government with Guy Hurdidge as its leader is elected at Ottawa. That may be inside of 100 years.

BELLEVUE HAPPENINGS

Mrs. Owen, of Fernie, spent the week end visiting with Mr. and Mrs. H. Harrison.

Mr. and Mrs. D. T. Hutton and son Gordon returned Sunday from a two weeks' vacation spent in Couer d'Alene.

Mr. and Mrs. W. Cole, senior, left last week end for their home in Victoria, B.C., after visiting here with Mr. and Mrs. W. Cole, junior.

Fred Padgett, accompanied by Miss Mary Gramacci and Master Benny Gramacci, left Sunday for Spokane and Vancouver. Miss Gramacci and her brother will visit in Spokane, while Mr. Padgett will proceed to Vancouver to bring back Mrs. Padgett and daughter Lily.

Mr. and Mrs. Charles Ritchie and children, Betty and Allan, returned Sunday from a two weeks' vacation spent in U. S. points.

What may have been a serious fire was discovered in the nick of time behind the cleaning plant of C. W. Ray. The cause is unknown, but had it got a bigger start and reached the cleaning fluids, the results may have been disastrous. Slight damage was done the side wall.

Mr. and Mrs. J. Tutt left the middle of the week on a two weeks' holiday.

BELLEVUE'S ANNUAL LABOR DAY EXHIBITION

Large posters were turned out from The Enterprise presses early this week announcing the twenty-second annual exhibition of the Bellevue and District Horticultural, Industrial and Poultry Society, to be held in the Bellevue Arena on Labor Day, Monday, September 4th, from 1 to 7 p.m.

The West Canadian Band will be in attendance for an hour or two prior to the opening of the exhibition. There will be the usual grand dance in the L.O.O.F. hall at night, sponsored by the members of Ray of Hope Rebekah Lodge.

The sports feature of this annual event is being dropped this year, owing to so many other attractions.

COWLEY HAPPENINGS

Mr. and Mrs. A. G. Swart have returned from a two weeks' visit to Lethbridge.

Master Norman Johnson will soon return home, after being a patient in the Red Cross hospital since May.

Visitors to Kallipell over the Logan Pass on Sunday were Messrs. Ronald and Lloyd Morrison, Miss Helen Morrison, Miss Edith Murphy and Miss Marion Morrison.

Harvesting in this district is in full swing at the present time. Owing to the severe hot weather in July, it is earlier than usual.

Mr. and Mrs. Ken Martin were week end visitors to Waterton Lakes. Misses Grace Lote, Connie Porter and Elaine Matthews are camping at Waterton Lakes for two weeks.

Among those visiting Waterton on Sunday were Mrs. I. B. Christie, Mr. and Mrs. Earl Matthews, R. Alexander and Mr. and Mrs. James Lote.

After spending a few weeks as guest of Mr. and Mrs. Harry Smyth, Miss Newburn has returned to Calgary to resume her training as a nurse.

A combine demonstration was held on Wednesday at the farm of G. F. Dwyer, a mile north of town.

Mr. and Mrs. E. Gray have returned to Calgary, after spending a few days as guests of Mr. and Mrs. Harry Smyth.

Miss Marion Morrison spent a few days last week visiting friends and relatives in The Pass.

Mr. and Mrs. Tom Bundy, of Erickson, B.C., were recent visitors here with Mr. and Mrs. C. J. Bundy.

Mrs. A. E. Ferguson and sons spent the week at Waterton Park.

HILLCREST HAPPENINGS

Officials of the Hillcrest Collieries Ltd. gathered together in the Masonic hall on Saturday evening last to pay honor to Mr. William Hutchinson, retiring mine manager, who left Monday for the coast, where he intends to take up future residence. Variety proved to be the keynote of the party as the assembled guests threw themselves into the jolly spirit of the occasion. During the supper period, Mr. William Adam, an old timer of Hillcrest, was called upon to make the presentation of a fine leather travelling bag to the guest of honor, who in accepting it returned his thanks in a few well chosen words. Before presenting the gift, Mr. Adam in a short address eulogized the many fine qualities of Mr. Hutchinson, which had been exemplified during his thirty years of work in Hillcrest, and stated that he was proud to have been associated with him. Following the serving of refreshments, an entertaining concert programme was staged, in which the majority of those present took part. Vocal solos were rendered by G. Bambrrough, R. Draper, J. Mackin and P. Salt, while short recitations were given by D. Kyle and J. Mackie. Several numbers were treated by the sing-song method, R. Crichton and J. Mackie added novelty to the programme with a delightful sword dance. Acting as pianists for the affair were W. Adam, G. Bambrrough, D. Kyle and J. Mackin. Art McEwing and his famous "Farmer Fiddlers" were in attendance. Mr. W. Adam acted as chairman.

Hillcrest Miners' baseball team invaded B.C. on Friday last and returned home with a one-sided 15-1 triumph over an Elk Valley nine. Sid Price went the route for the locals, twirling masterful ball as he hung up his fourth consecutive victory. Batteries: Elk Valley—Anderson and Billy; Hillcrest—Price and Ellick.

Mr. and Mrs. Pete Stefano are holidaying at Trail.

Hillcrest residents were shocked to hear Monday that Rees Richards, senior, former local dairyman, had passed away at the coast. An old timer of this district, Mr. Richards had been in the milk business here many years before selling out to the Meadow Sweet Dairies in 1938. He left Hillcrest a few months ago, and his sudden death was entirely unexpected, as many persons did not even know he was ill. To mourn his passing are a sorrowing wife, one son, Gwyn, and two brothers, Sam and Dan, both of whom reside in Hillcrest.

George Bambrrough, junior, Charlie Ulrich and Guido Civitarese motored to Spokane last week.

Mr. and Mrs. McKenzie and two children, of Fort Pick, Montana, who have been visiting at the home of Mr. and Mrs. Ben Carter for some time, returned to the U.S. last week.

"OH, IT'S NOTHING—JUST A SCRATCH"

"Oh, it's nothing, just a scratch," but just a scratch and comparable small cuts and lacerations were a heavy item last year for organizations that pay compensation to employees, says the Alberta Safety League.

The 1939 edition of Accident Facts, the national safety council's statistical yearbook, notes: One cut of ten compensated occupational injuries involves infection. Many of these cases begin, as shall scratches or lacerations that would have resulted in no disability if proper medical treatment had been given promptly.

W. A. Finlay, assistant manager of The Canadian Bank of Commerce, Toronto branch, has been appointed president of The Canadian Bank of Commerce, California, with head office in San Francisco. This is a state bank, controlled by The Canadian Bank of Commerce.

"Serve the Church that the Church May Serve You."

CENTRAL UNITED CHURCH BLAIRMORE

Rev. E. B. Arrol, B.A., Minister

Sunday services—

11.00 a.m., Senior school.
2.00 p.m., Junior school.
7.30 p.m., Public worship.
Wednesdays, 8 p.m., Prayer service.

ST. LUKE'S CHURCH NOTES

Rev. J. R. Hague, Rector

11 a.m., Morning service.

REGULAR BAPTISTS

Pastor J. W. MacDonald, Minister

In the Union hall. Services Sundays: 11 a.m., Senior and Junior Sunday school.

7 p.m., Song service; 7.15, evening worship, singing by choir.

Tuesday, 7.30 p.m., Cottage meeting in pastor's home.

Thursday, 7.30 p.m., Prayer and Bible study.

Service in Frank 2 p.m. Sundays. You are cordially invited to our services.

THE SALVATION ARMY, COLEMAN

Capt. F. Watson - Lieut. R. Weddell

Services of the week—

Sun., 2.30 p.m., Sunday school.
Sun., 7.30 p.m., Salvation meeting.
Tue., 7.30 p.m., Ladies' Home League. Strangers and friends warmly invited.

Weddings, funerals and dedications conducted on application to local officer.

CHURCH OF THE NAZARENE

Near the Depot, Coleman

Pastor: Rev. Leonard Falk, B.A.

Assistant: Miss Dorothy Thomson.

Services: Sunday school at 11 a.m. Morning worship at 12 noon. Street meeting at 6.30 p.m., in front of Coleman hotel. Evangelistic service at 7.30 p.m.

Tuesday, 7.30 p.m., Bible study.

Friday, 7.30 p.m., Prayer meeting.

Every second Friday at 8 p.m., the junior missionary society meets.

DECLARES TEACHERS

ARE UNDERPAID

A national survey into teachers' salaries was asked in a report to the Canadian Teachers' Federation convention at Montreal. The report, prepared under direction of Professor M. E. Lazerte, president, of Edmonton, called the teacher the "key man in the struggle all British people are making to preserve freedom against the threat of the spread of dictatorship," and added that it is therefore of immediate national interest that a survey should be made of the Canadian teaching personnel in terms of the monetary value placed upon their services.

"To put it bluntly," the report claimed, "more than half the teachers of Canada live at the lowest level of self-supporting penurious existence, and it is time that more light was thrown upon their condition."

Mr. Lazerte told the federation that the people of Canada have a respect for education, but it is a respect which, in many ways, is divorced from the willingness to pay for services rendered.

In 1910 Frayer & Sinclair had Ted Barnes dig a well in Blaimore. Water was found at a depth of 25 feet.

WORLD HAPPENINGS BRIEFLY TOLD

President Roosevelt signed into law a measure aimed at "card sharpers" and other crooks who operate on United States ships at sea.

Two Australian cruisers, the Canberra and Sydney, are to make a long cruise around Australia and the Dutch East Indies.

Milk shakes now compete with rum, traditional drink of the British navy. A soda fountain is one of the chief attractions aboard the newly launched British destroyer Kandahar.

Canada has sent to the Smithsonian Institution the partial skeleton of a dinosaur which 95,000,000 years ago roamed the swamps of what is now Alberta.

Selected Swiss immigrants may soon be entering Australia at the rate of 50 a month as the result of an agreement between the government and the Swiss consular-general.

One battalion of British troops and two battalions of Indian troops arrived from India to strengthen the Singapore garrison. One battalion and a squadron of planes has arrived.

The war office announced that 18,520 volunteers enrolled in the regular army between April 1 and July 31, compared with 12,812 in the corresponding period last year.

Three centuries-old castles which nobody seemed to want have found a new use among Britons—they make ideal wartime shelters mainly because they generally are isolated in strategically unimportant areas.

Reports reaching London, France, said that hundreds of civilians had been arrested for allegedly giving aid to former Spanish Republican soldiers still in hiding in the Asturian mountains.

Champion In His Class

Man Can Still Peel Bag of Potatoes In One Hour

A one-time champion potato-peeler of the Cunard Line arrived in Durban recently aboard the Mahia.

He was Mr. J. J. Hickman, now chief cook of the Mahia. In seven years he peeled more than 3,000,000 potatoes for passengers travelling between London and Montreal. In those days potato-peeling was a full-time job. Five men were required to handle the 200 bags which the 1,140 passengers consumed during the voyage.

Mr. Hickman said he never tired of the work. Even now his idea of a rest was to peel a bag of potatoes which took him about an hour. There was an aspect of this work which appealed to him. It was possible to sit down and gossip at the same time.

The best potato-peelers, he thought, came from Lancashire. It took about 4½ months to make a man proficient at the work—South African News Bulletin.

Tribute To The English

Nations Who Think Them Decadent Are Foolish Says Scotsman

Sir William Crawford, head of the Crawford Advertising Agency, London, says:

"I am a Scot. I can look at the English and their peculiarities from the stranger's viewpoint. It is a fashion in the world to say that the English are decadent. Some people and some nations have fallen into the error. And it is an error. The English love sport, and they work in and adore their beautiful gardens and they are not absorbed in money-making and soldiering. The English are not transparently efficient, yet they are regular in all they do and they do everything thoroughly. The critic who observes that the outer surface appears soft has misread the English character. The core is like granite—strong, hard, enduring and unbreakable."

In preparation for the Olympic Games next year, policemen of Helsinki, Finland, are learning to speak English and German.

Duty Of The Press

Newspaper Defends Attitude In Printing War News

Newspapers do not create war by carrying war news—they help to prevent it. They are not playing into the hands of the dictators when they carry war news. The dictators have everything to lose and nothing to gain when their cruel machinations are exposed to world opinion. The solid bloc of world opinion which is at present standing between Hitler and the realization of his supreme ambitions is in no small part a result of the work of the newspapers.

The blame for the condition of business to-day must be placed on the source of the news—the grasping dictators—and not on the newspapers. The newspapers have merely been fulfilling the trust placed in them to print the truth—London Free Press.

HOME SERVICE

A FAULTY FIGURE? TAKE RIGHT EXERCISES

New Booklet An Aid To Beauty

"What shall I do?" wails Mrs. Smith. "My large hips and thighs make me look like a dowager—and I'm really slim otherwise!"

Do the right exercises and you'll take off those extra inches, safely, easily. Simple but correct exercises can improve your posture, too, your general health, even Uplifted Beauty. Try it!

1—Lie on back, arms out to side, pull both knees back to chest. 2—Swing knees across body to right side, then stretch legs downward and back to straight position. 3—Alternate to opposite side. Repeat, alternating right and left for six times. Repeat to exercise 12 times together.

Easy to remodel your figure, take years off your looks, with the help of our new 32-page booklet. Gives 35 exercises to correct faults of the waistline, shoulders, arms, bust, hips and legs—to develop good posture, to remedy foot troubles and constipation, relax tense nerves. Also gives daily exercise routine to benefit the entire body.

Send 15c in coins for your copy of "Best Exercises For Health and Beauty" to Home Service Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

In addition to the feature release, the following booklets are also available at 15c each:

110—"Hand-Made Gift Novelties";

129—"The Meaning of Dreams";

129—"Build Your Own College Background".

Requires Workers

Live Town Does Not Depend On Population Or Wealth

Towns have a reputation, and are commonly known as live towns or dead towns. Two towns may have the same population and wealth but one of them may have an element of live action in it which its rival lacks. What constitutes this life? It consists first in a willingness to work for the benefit of the community. If the people of a town won't organize and carry on activities, they can be expected soon to fall behind. In a live town, people are constantly looking out for chances to get new trade, obtain new industries, to encourage the industries they have to expand, and to maintain active organizations that provide home town benefits. Any town can become known as a live town if its people are active and energetic.

No Visitors Allowed

Draconic Order Issued By Germany Regarding Island Of Heligoland

All Germans of more than 15 years of age are barred from visiting Heligoland, the fortified island that guards the ports of Bremen and Hamburg by the term of an order issued by the Nazi Ministry of the Interior.

Two months ago foreigners were banned, but at that time newspapers stated that Germans could continue to pass their holidays on the island which has always been popular as a bathing resort. The new order was interpreted as meaning that the Government is working overtime modernizing and rebuilding the fortifications that were destroyed 20 years ago in compliance with the Versailles Treaty.

The order is specific and drastic. Germans may not visit the island or be on board a ship that touches the island, without special passes bearing their pictures. Foreigners may not board a ship that touches the island under any circumstances. Paintings, drawings and photographs of the island are also forbidden, and natives of the island must receive special permission to own cameras.

Photograph Of Well

Underground Camera Is Installed At Turner Valley Oilfield

Turner Valley oilfield has installed its first underground camera, capable of recording strata formations to a depth of 12,000 feet.

The electric log, or "Jeep" as the oilmen have termed it, is mounted on a truck and is complete with "dark room" for developing, operating room and control room to guide the 12,000-foot cable.

An electrode containing motors times with similar motors above the surface is suspended from the cable. Light is reflected to the electrode through mirrors and a goniometer registers variations as a negative.

Indentures are recorded on a graph as the electrode passes through structure layers and the operator translates the meaning of variations. The camera records 350 feet a minute and complete picture of a shaft can be completed in an hour and a half.

SCALLOPED-EDGED PRINCESS DRESS

By Anne Adams

4142

What an endearing young dress this is! Its fluid, graceful lines make it all without curves. Anne Adams has planned Pattern 4142 for quick, easy sewing. Your needle will fly over the straight princess seams, especially with the illustrated sewing instructions to explain the how and where. You can make this centre front and back panels on the bias for a novel effect. You'll find it fun to make the scalloped edge and just see how new and pretty they look! They form the edge of the young square skirt and the wide, wide openings of the sleeve. Use perky bows here and there, and lace or ric-rac trim to highlight the femininity of this centre.

Pattern 4142 is available in junior and misses' sizes 10, 12, 14, 16 and 18; bust sizes 28, 30, 32, 34 and 36. Size 14 takes 3½ yards 39 inch fabric and 5¼ yards lace.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

The United States was England's best source of supply for principal products in 1937.

SUNDAY SCHOOL LESSON

AUGUST 20

BEVERAGE ALCOHOL AND THE COMMUNITY

Golden text: Woe unto him that giveth his neighbor drink. Habakkuk 2:15.
Lesson: Joel 1:5-7; Daniel 5:1-5, 17, 23-28.
Devotional reading: Isaiah 28:1-6.

Explanations And Comments

The Source of Wine Taken Away. Joel 1:5-7. Nothing is known about Joel himself save that his father's name was Pethuel, 1:1. In our verses he is referring to the destruction caused by locusts, and bidding drunkards and drinkers of wine mourn, for all vineyards have been destroyed. He speaks of the vast horde of locusts as a "nation", and without number. Their teeth are as destructive as a lion's, as the jaw-teeth of horses. Vine and trees are stripped, the bark of the fig-trees gnawed through and the white wood exposed. Belshazzar's Feast and the Writing on the Wall, Daniel 5:1-16. "The feast clearly took place in the palace; and it is not certain that when the king saw the vision he was under the influence of wine. Either of two things may have helped to cause the vision. One is that the words Mene, Tekel, Upharsin, may have been there before the king's eyes, permanently inscribed on the wall, in cuneiform characters. The standards of weights and measures were probably kept at the palace, and there would be fixed spots in the palace halls for testing them, or possibly for weighing the royal revenues, which may have been paid in kind as well as in coin. Near the spot where this was done the words recorded may have been inscribed; Mene marking the place where the goods were counted; Tekel, that where they were weighed; and Upharsin, that where they were measured. The standards of weights and measures were probably kept at the palace, and there would be fixed spots in the palace halls for testing them, or possibly for weighing the royal revenues, which may have been paid in kind as well as in coin. Near the spot where this was done the words recorded may have been inscribed; Mene marking the place where the goods were counted; Tekel, that where they were weighed; and Upharsin, that where they were measured. THE TRAILER TAX RESCINDED

We are advised that the obnoxious Trailer Tax, which had the farmers up in arms, has been struck off the books and will not be enforced.

Why the government should pass legislation of this kind is hard to understand. Would it not be better to give all proposed legislation careful consideration before passing, and having decided that the proposed legislation was not good, throw it out and not clutter up the books with a lot of laws that never should have been passed.

Or, having come to the conclusion that certain proposed legislation was good, and it should not be passed unless good, pass it and see to it that it is enforced no matter what protests are put up.

To pass legislation and then rescind it or not enforce it is in our opinion a show of great weakness on the part of any government.

A review of the legislation passed by the Aberhart administration since it took office gives every indication of weakness and lack of appreciation of the needs of the people.—Innisfail Province.

The case history of a cow with an inferiority complex that developed into a record milk producer, was related to the London psychology summer school at Oxford, England. Milk production was stepped up from 350 to 2,000 gallons a year. The farmer stated: "Cows are like women. They need petting and fussing. I caressed her and fussed over her, and changed her diet to things she asked most. Her inferiority complex has gone. Cows need psychological understanding."

The first issue of The Blairmore Enterprise under the present ownership about thirty years ago carried the following ads: Mar On, Blairmore Liquor Store, Harvey Murphy, Frank Blacksmith Shop (J. W. Gresham), Department of The Interior (3 ads), Province of Alberta, J. C. Hart (Fernie), The G. H. Laundry, Sun Life Insurance Co. (J. A. McDonald), Dr. G. H. Macdonald, Evans Bros' Bakery, A. NEWS FROM EDMONTON

(T. B. Windrow)

Edmonton, Aug. 14.—Alberta's election date will be announced within a few days after a federal election has been called, it became clearer over the week end. Provincial government officials have been instructed to stand ready for it, and it is possible that the province's election may be announced next Sunday night, when Premier Aberhart's Edmonton Prothetic Bible Conference re-opens after a summer lay-off.

Aberhart said last week that he intended to make the election announcement, when he was ready, by radio "so that everybody can hear it." Incidentally, there was some hope that by saying that he would cause practically the whole population of the province to listen to his Sunday politico-religious broadcast service, through which he does most of his political campaigning without danger of heckling or questions.

Those opposed to Aberhartism are just as anxious as the premier is that everyone should listen to him over the radio and on the platform. They say it is a public duty to listen to him at every opportunity and to compare his statements with known facts, in order that his competence in government can be best understood. They are saying that the best way to oust Aberhartism from Alberta in the coming election is to have voters listen to Aberhart.

Those political opponents are glad to know that substantial crowds hear.

Aberhart and his political machine's mechanics at many places on his 2,000-mile two-week campaign just ended in the southern sections of the province, and they noted that not one of the meetings demonstrated any spontaneous enthusiasm for the Soc. Credit leader who four years ago was raising crowds to ecstasy with his promises of golden days to come if he was elected. Even the carefully-planned device of the "Big Book," which Aberhart purports to be a record of his administration since 1935, and which contains some wonderful statements and figures, which responsible members of the civil service were not asked to check over, could not raise the crowds to enthusiasm. Nor could the song-and-comedy act, which Aberhart included in his travelling troupe.

It was considered thoughtless that in the midst of Mr. Aberhart's campaign speeches, which as usual attributed supreme strength to "international finance," one of the greatest banks in the world, Mendelssohn and Company, of Amsterdam, Holland, should suspend operations because of shortage of funds. It eventually had not learned from Mr. Aberhart that it could create its own credit by writing figures in a book—even a "Big Book"—or "create the means of payment out of nothing." Anyway, it closed its doors. The Alberta premier, as this week opened, has not made public any offer to go to Holland, or send an "expert," to show those international financiers how to run a bank.

The Aberhartian version of a bank, the "treasury branches" scheme, which creates its own credit and its means of payment by taking hard cash from depositors and from the public treasury, and by charging depositors two per cent to get their money back in cash rather than vouchers, was pointed to by the premier in his tour last week as the hope of "monetary reform" in Alberta within a couple of years—if he is re-elected, of course. State medicine is just around the corner if he is re-elected, he said.

At some places, he said that the past four years he had carried out 95 per cent of his pre-election promises. At others he said he hadn't carried out his 1935 pre-election promises because he "wasn't allowed to do it," but that everything would have

The SNAPSHOT GUILD
SEEING THINGS AT NIGHT

Photographing lightning presents no problem other than patiently waiting for the flash with the lens open, the camera stationary. At the top—a night picture made with an exposure of 25 minutes at f.8 on chrome type film. It's probable that a shorter exposure would have sufficed.

OUTDOORS at night you will find many a good, perfectly "gettable" shot. Lightning, for example, takes its own picture very neatly. And the procedure is simple.

As a lightning storm approaches, place the camera (even a simple box type outfit will do) on a window sill or some other convenient perch, aim it at the storm center, open the shutter for a time exposure—and then wait for things to happen.

If you are lucky, a bolt of lightning will soon come within the ken of your camera. Then close the shutter, wind the film to the next number, and try again. Lightning pictures are doubly effective if they include nearby buildings or trees.

Picturing illuminated buildings, electric signs, and other night-blooming subjects is simply a matter of time exposure. The camera, of course, must be stationary. Length of exposure depends on the amount and color of light on your subject, and the kind of film used. The chrome type of film is excellent for outdoor night time exposures, as it minimizes flare from strong, exposed lights. Usually, you'll find exposures of from two to five minutes adequate (unless you stop the lens 'way down; then you'll need longer time). And if your subject is bathed in colored

lights, especially any reddish hue, give it about double the time you would otherwise use.

Real moonlight pictures are something to point to with pride. Moonlight will make pictures just as sunlight does, but being many times weaker, exposures must be very considerably increased. The simplest way to calculate a moonlight exposure is to give 25 minutes for each 1/100-second exposure that would be given the same scene in sunlight. Suppose it is a landscape with a dark-toned object in the immediate foreground. The moonlight exposure would be 1/25 at f.11. Then by the light of a full moon with sky clear throughout, it would be 100 minutes at the same stop. This could be cut down to 50 minutes with stop f.8. Without nearly dark-toned object, the exposure can be cut down to 25 minutes at f.8; for distant landscapes, to 10 or 15 minutes.

If a sort of daylight effect is desired, then exposures must be multiplied by four.

Warning: Don't include the moon itself in your picture unless you want it to show a nice bright "baloney" sausage hanging in the sky. Like the sun, the moon "do" move.

John van Guilder.

Seventy-five English school girls arrived in Calgary on Friday last on an educational tour sponsored by the Canadian Council of Education. On Saturday they toured Turner Valley.

Mowing operations commenced on Porky's Dome on Friday last. This piece of pasture is believed to be the highest in Canada, being approximately 4242½ feet above sea level. The area is absolutely clear of tim-

ber and living creatures, apart from an occasional grasshopper or potato bug. Sam, who did the cutting, said the crop was a fair one.

COUNTER CHECK BOOKS—order them at The Enterprise office at the same price as you can get them at the factory, or from a traveller. Keep as much money as you can in Blairmore.

IN AND AROUND ELKO (By Alf)

While listening to an argument indulged in by some "old timers" as to what might happen should the local hotel close its doors, I was amused at the pros and cons in this argument, but when the subject veered round to "cars and car drivers," it gave me something to think about.

"Should an old-age pensioner be allowed to drive or own a car?"

Well, so far as driving is concerned, as applies to the above, should the old-age pensioner not be most eligible for a license? He don't receive enough to keep the car filled with gas, and himself full of beer; hence less accidents on the highway.

A party of local fishermen just returned from a trip up the Lodge-Pole creek, returning by way of the south fork of the Elk. Their sacks seemed to be well filled, and they no doubt had a pleasant trip, but the thing most noticeable upon their arrival was the limp in some of the men. Too much car riding, not enough hiking as in dad's day; so a long jaunt takes it out of the young fellow. He can't take it with dad, yet!

The power plant population is increasing very noticeably, and when the junior crop becomes of school age, that end of the burg will be looking for an extra teacher. More power to the power plant.

The proprietor of an auto service station,

Who is "tops" in his own estimation,

Is there with a long speel,

But to repair a wheel

Just call a man from the opposite station.

A motor cyclist, paying a visit to the Hilltop Cafe a few mornings ago and seeing a sign "quick service," decided no doubt to take advantage of this service by driving right in. When he missed the entrance and hit the wall on the side of the building, tossing the lady from her seat behind him, she decided it a poor landing place and remarked, when seeing a doctor on the side as he picked herself up, "Well, this is quick service." "Yes, and quick landing," said the doctor.

The service man was in great delight—

A tourist asked him to repair a bum light.

As a mechanic he's punk,

But for peddling the bunk—

Well, ask the man who bought the new light.

Our big game hunter and fisherman, Mr. Beaudry, has been home over the week end from the forestry camp up Gold creek, where he is employed as cook. No "speckles" in that creek under two pounds; at least, Wilfred hasn't been able to land them smaller.

We are having considerable competition in the dairy business in our burg of late. One of the dairymen brought in another cow to better supply his customers. Yes, better milk, I have no doubt.

ONLY A NEWSPAPER STORY

"It's only a newspaper story; you can't believe a word you see in the papers." This ancient wheeze has been exploded by Frank Kent, who adds this one:

"In no other business and in no other profession, save that of the pure scientist, is the premium on accuracy so high, the penalty of inaccuracy so prompt, and the proportion of accuracy so great."

And another writer comes forward to say he believes Kent might well have added that no other business has the same number of chances for error in every day's performance. No other agency does its job so continually under the public eye with so little chance to cover up its mistakes. No other business or profession has to live on with its mistakes, certain that they will be rediscovered at the most embarrassing moment long after the circumstances that created them are forgotten.

Quite a number from here attended the big Liberal rally at Lundbreck on Wednesday evening.

LOCAL AND GENERAL ITEMS

A doctor says tripe is good for the health. Gee, newspaper reporters must be healthy.—Albertan.

It is now predicted that a federal election will be sprung in October, giving the date as the 23rd.

Surveyors are camped near the old South Fork (Canyon) bridge, said to be locating a site for a water reservoir.

Ex-Chief Fred Goddard plans on making a trip to the Pacific coast before settling down to retired life in the town of his adoption, Blairmore.

D. A. ("Gus") Howe, night porter at the Greenhill hotel, left on Monday to join Mrs. Howe and children at Calgary, and will spend a few days holidaying there.

Mrs. Joe Cardinal, who has been visiting her mother, Mrs. E. Rach, at Crossfield, has returned to her home in Coleman, accompanied by her sister, Miss Ellen Rach.

By a margin of merely four ballots, members of the Hillcrest local of the U. M. W. of A. No. 1058, on Tuesday voted to open wage negotiations with the mine management.

Word was received from Vancouver recently of the death of S. J. Watson, one of the real old timers of Frank, where in the pioneer days and up until about 1912 he conducted a drug store.

A local lady was entertaining her young friend's small son. "Are you sure you can cut your meat, Johnny?" she asked, after watching his struggles. "Oh, yes," he replied without looking up from his plate. "We often have it as tough as this at home."

"Back to the farm" for Premier Aberhart's comedian. No wonder the chap lost his farm, while if he had a regular job as a comedian he would surely lose it, too. Such pitiful nonsense at such a critical time in Alberta's history!—Drumheller Review.

John Angus MacDonald, who last week end was called to Drumheller through the death of his brother Roderick, returned from Rowley on Wednesday night. The remains of the late Roderick MacDonald, of Rowley, who died in a Drumheller hospital, were laid to rest in a Drumheller cemetery on Saturday afternoon.

Constable C. L. Andrews secured his discharge from the Royal Canadian Mounted Police early this week, and after a few days holiday will take up new duties as chief of police of the town of Blairmore. Mr. Andrews has all the qualifications necessary for the new post, and will no doubt prove a very efficient officer.

Belief that police have unearthed what appears to be a widespread naturalization racket is entertained in Edmonton, where Mr. Justice Tweedie appeared at a hearing as a witness against a defendant charged with perjury. It is said that nearly fifty persons will be charged with various offences concerned with the illegal obtaining of naturalization papers. A ring is suspected.

While Premier Aberhart, the headliner in his own election campaign vaudeville show, is very proud of his big book, showing what Aberhartian had done for Alberta, those wishing to eradicate this disease from Alberta could write a whole library of such big books on the untold damage the Aberhart policies have done to Alberta.—Drumheller Review.

Fishermen may now feel somewhat content in the fact that their person can not be searched by a warden on the strength of mere suspicion. A warden may go through the creel or sack, or other receptacle carried outside of the person's wearing apparel, without warrant, but to go further an arrest must be made, according to the latest interpretation of the Alberta fisheries regulations. A full hip pocket does not always mean small fish or illegal equipment. A man may carry a lunch, a towel, a bottle of pop, or what not, and still be within the law.

SHINING EXAMPLES

Today, when you drive a car into a filling station, the attendants are prompt, polite and competent. A few years ago a motorist apologized when he asked for water for his radiator. He had to find the bucket and do the filling himself. Some smart boss told his attendants to do this little service for his customers. Another boss, not to be outdone, told his men to wipe the windshield. A third suggested that people might appreciate help in inflating their tires.

The spirit of willing service has spread until you are now almost certain of decent treatment in any filling station. Good attendants make more money than they did in the old days when they were mean and unaccommodating. Some are paid a percentage of their sales of oil and gasoline. Many have regular customers who patronize them exclusively. Everyone in business can learn something from observing the filling stations.

Mr. John Roberts and daughter Peggy, who had been holidaying in the district, returned to Calgary this week.

Misses Verndella and Lillian Packer are home from Calgary on holiday with their parents, Mr. and Mrs. Jack Packer.

Mr. and Mrs. S. L. Trono left last week on a holiday trip that will take them through Yellowstone Park and Nebraska.

A lady accidentally stepped on our foot a few days ago. Luckily, she picked on the half section that was paralyzed.

On Democracy Day, Tuesday next, our premier should be presented with a new car, a new meal ticket and a leather medal.

Murray's Express, a beautiful new bus, has been added to the Murray Transport Co. service between Lethbridge and Coleman.

Imperial Airways has suspended passenger reservations on Empire air routes to Africa and Australia, effective after August 9th, principally because of a shortage of planes caused by Great Britain's defense speed-up.

Thirty years ago Canada's navy consisted of one ship, carrying 273 officers and men. The Rainbow was constructed at a cost of \$920,000. Her tonnage was 3,400, length 380 feet, beam 43 feet, draft 16½ feet, speed 20 knots.

The blade of an airplane propeller, believed to have been from the neaplane which disappeared about six weeks ago between Sandgrit Lake and Northeastern Quebec, has been picked up at Port au Choix in the Straits of Belle Isle, Newfoundland.

Social Credit meetings were held during the week, Wednesday night at the Blairmore Union hall; last night at the Bellevue Catholic hall, and tonight will be at the Hillcrest Catholic hall. Speakers are E. G. Hansell, M.P. for Lethbridge; J. H. Blackmore, M.P. for Rocky Mountain, and Roy C. Taylor, M.L.A. for Pincher Creek. Meetings on Wednesday and Thursday nights were fairly well attended.

Brigadier Joseph Acton, divisional commander of the Salvation Army for Alberta, has been appointed divisional commander for Northern Ontario division, with headquarters at Orillia. Quite a number of years ago Joseph Acton was in charge of the Army corps at Coleman. Lieut.-Col. Rufus Spooner, at present territorial young people's secretary, has been appointed provincial commander of the mid-western provinces, embracing Manitoba, Saskatchewan and Alberta. Brigadier James Merritt, at present provincial secretary of the mid-western provinces, becomes men's social secretary at territorial headquarters. Brigadier Ludwick Ursaki, divisional commander for Northern Ontario, succeeds Major Acton in the Alberta field.

LOCAL AND GENERAL ITEMS

Mr. and Mrs. W. H. Chappell returned last week end from a holiday spent at Calgary, Banff and other points.

The famous House of David whiskered baseball team have been touring Nova Scotia during the past couple of weeks.

The average telephone or electric lineman reminds one of Hitler—almost always looking for trouble, and just about as often finding it.

Miss Lillian Knapman has been away on a brief holiday, during which she visited her mother and sisters at Bellingham, Washington.

A regular meeting of Blairmore Lodge of Elks will be held in the Ojibwa hall on Tuesday night next, August 22nd. General business.

In the year 1938, the city of Vancouver did thirty times as much business with tourists as did the whole province of Alberta. This year, however, with the understanding that Alberta highways are being improved, that percentage will likely be higher.

W. F. Knode, Texas oil expert, who, as chairman of the Petroleum and Natural Gas Conservation Board, has been responsible in the main for conservation measures in Turner Valley, is no longer a member of the board. He has entered into private practice in Calgary as a consulting production engineer, his contract with the board having expired.

In a Nova Scotia court the other day, a man named MacDonald faced trial. It is interesting to note that the judge hearing the case was named MacDonald, the crown prosecutor was a MacDonald, the defence counsel was a MacDonald, fifteen witnesses were MacDonalds, and the cop who arrested the accused was a MacDonald. They must be a bad lot!

A letter mailed in London, England, on August 4th, at 12:15 p.m., was delivered in High River on August 7th.

A new Blairmore cop will have his hands full to rid the town of gophers, grasshoppers, toads, frogs, pigs that are blind, gamblers, etc.

The annual conventions of the Mar-Itimes Grand Lodge of the I.O.O.F. and the Rebekah Assembly, were held this week at Summerside, P.E.I.

Mr. and Mrs. John ("Jack") Onkes returned last week end from their two weeks' honeymoon trip, and have taken up residence in West Blairmore.

Canadian tourists to the United States in 1938 spent \$49,362,000, of which British Columbians accounted for \$7,541,000 and Albertans \$661,000.

In the Canadian automobile manufacturing industry between 1922 and 1938 the huge sum of \$295,279,862 was paid out in wages and salaries to employees.

Hugh Manson received word last week end of the illness of one of his parents in Winnipeg. Mr. and Mrs. Manson left for Winnipeg by auto on Saturday morning.

In the little islands of St. Pierre and Miquelon in 1938 only 38 passenger cars and 64 trucks were operated. Even road material there has had to be imported from Newfoundland.

The transfer of Mel Snowden, Dick Kowcinak and Johnny McCready from Trail to Northern Ontario has been approved. The three boys have been stars on the Smoke Eaters' hockey team.

Dr. O. S. Aandot, former head of the University of Alberta field crops departments, and head of the department of agronomy at the University of Wisconsin since 1935, was recently appointed principal agronomist in charge of the United States division of forage crops and diseases.

Mrs. P. C. Lowe, of Calgary, was a visitor with friends in Blairmore last week.

Luigi Denotaris has moved to Coleman, where he has opened up a shoe repair shop.

E. Pickard has returned from Yellowknife, where he has been employed for some time.

A man who refuses to co-operate is about as useless to his industry as a glass eye in a keyhole.

Revenue from gasoline taxes in Alberta increased from \$2,726,359 in 1937 to \$3,091,879 in 1938.

Twenty-five years ago the Home Bank was paying dividends, but nothing as silly as twenty-five bucks a month.

The Fernie high school junior first aid team placed seventh in the Dominion in the Wallace Nesbitt competitions.

Mr. and Mrs. Donald MacPherson and children returned last week end from their annual holiday, spent at the Pacific coast.

Alfred Speakman, former member of the house of commons for the federal riding of Red Deer, has been chosen as independent candidate to contest the constituency in the next provincial election.

We received a letter this week from a former Blairmore old timer, in the person of Alvah Agnew, now resident in Detroit. Alvah left Blairmore about 1915, when he went overseas. While here he was in the employ of P. Burns & Company.

Harry Gate, 31, of Coleman, was remanded for trial in the police court at Pincher Creek on August 10th, charged with manslaughter arising out of the death of Fred Morris on the highway near Brocket on April 29th. He was admitted to bail in the sum of \$2,000.

"Young Man—
I THINK YOU'VE GOT
SOMETHING THERE!"

● Grandma always was a keen shopper and quick to "snap up" a bargain... but you'll recognize these BARGAIN OFFERS without her years of experience... you save real money... you get a swell selection of magazines and a full year of our newspaper. That's what we call a "break" for you readers... no wonder grandma says—"YOU'VE GOT SOMETHING THERE!"

The PERFECT Chewing Tobacco

Honoring The Dead

In the minds of some people cemeteries may be regarded as a somewhat gruesome topic to write about or talk about, but it should not be and there is no reason why burial grounds should be allowed to present an appearance that naturally lends an atmosphere of gruesomeness to any thought or discussion of them.

Unfortunately, as one travels up and down the length and breadth of the country, far too often there breaks upon the view of the passerby the vision of a cemetery in a condition that would not be tolerated were it the site of the abode of the living.

One sees, perhaps on a bleak, wind-raked hillside an unkempt piece of ground littered with weeds and dotted with leaning, cracked, stained and weathered headstones of wood, stone or marble inscribed with loving testimonials whose words are belied by the surrounding pitiable scene of neglect and disorder.

Or maybe, the home of the dead is located in a low lying spot of wasteland. Perhaps "God's acre" is surrounded by a fence of rotten posts which act as a poor support to a few straggling and broken wires. Here and there is to be seen a miserable and unwelcome apology of a tree, wilted mixture of straggling weeds and struggling flowering plants, or cut flowers which have long since given up the ghost.

Some Beauty Spots

On the contrary, there are to be found in many of the towns and villages and along the country roads, burial grounds which are a delight to the beholder and which diffuse that atmosphere of beauty, peace and rest which properly belongs to the purpose for which such areas have been set aside and dedicated.

Where the grounds for the interment of the departed are well laid out and well maintained, it will usually be found that either they are privately owned or, if a municipal enterprise, they have been placed under the charge of a committee of citizens who have sufficient respect for their duties and pride in their responsibilities to make of them a sacred trust and undertaking.

And where the best results have been achieved it will usually be found that custodianship has been vested in a committee, not of the local council, but of citizens representative of a number of community organizations, men and women who are conscientious, who can somehow spare time to devote to the work and who can and do take a genuine and even a zealous interest in the undertaking.

Some of the most beautiful cemeteries in the country are entirely the result of voluntary committee effort directed by committees of the type mentioned. The work is not done in a haphazard or sporadic manner. Rather it is a labor of love. Members of the committee in charge make frequent visits to the hallowed burial ground and when there is work to be done, whether it be new plantings, repairs or simple maintenance, a working bee is organized and the work is done without fuss or feathers.

Expenditure Unnecessary

Climatic and financial conditions, of course, make it impossible to reproduce in rural Western Canada cemeteries such as the famous one in Los Angeles where large sums of money have been spent on buildings, sculptures, lighting effects and music in a setting of unparalleled beauty, but the underlying spirit which inspires the sponsors of this beautiful cemetery can be emulated and used to reproduce a similar atmosphere and effect on a moderate scale.

When it is remembered that a hallowed and beautiful last resting place for the loved ones who have gone before can be provided without much expenditure for materials, there seems to be little reason why every cemetery in the west should not be creditable to the community in which it is situated, since there is always plenty of volunteer labor available at periodic intervals even in the smallest community.

It is largely a matter of the proper attitude of respect towards the dead and for the feelings of the relics, a pious community spirit and the will to do. Given these things much can be done with little or no cash outlay.

Cater To Customers

Several hotels in London keep live trout in an underground building, in which a stream of fresh water constantly flows through tanks. The trout are in regular demand by the customers, who choose their fish before it is cooked.

A new standard field gun developed by the U.S. Army has a maximum range of 25,000 yards.

WILSON'S FLY PADS

REALLY KILL

One pad kills flies all day and every day for 2 or 3 weeks. 3 pads in each packet. No spraying, no stickiness, no bad odor. Ask your Druggist, Grocer or General Store.

10 CENTS PER PACKET
WHY PAY MORE?
THE WILSON FLY PAD CO., Hamilton, Ont.

Michigan Making Test

Reaction of the average motorist to varying road conditions will be tested without the knowledge of drivers under a new Michigan highway department scheme. At picked spots metal bands will be inserted in the roadbed to determine position of cars on the road, speeds and reaction to various types of roadside signs.

Japan Short Of Metal

Americans who have returned from Tokyo and Yokohama report that the manhole covers in the streets of Japan have been replaced by wooden covers, so that the metal may be converted into munitions. And all the metal mail boxes in those cities have been replaced by china ware.

More than 1,250,000 pounds of metal approximating 50,000,000 letters, are being carried by Imperial Airways every three months.

In spite of its carnivorous habits towards insects, the praying mantis is harmless to man.

New York City had no regular board of health prior to 1842.

For Good Friendship

English Servants Find Cycle Club A Successful Venture

An advertisement in a bicycle magazine has brought an end to loneliness for a number of domestic servants in London.

In 1936 a butler, fond of cycling, advertised in a magazine for domestic servants to form a club. Miss Martha Leigh answered the call and eventually a club of six members was formed but it didn't last long.

Last August Miss Leigh decided to try again. Before starting on a cycle tour she advertised and received 25 replies from maids, butlers, footmen and chauffeurs. A new bicycle club was founded. To-day there are 100 members divided into several groups.

The club's chief object is to promote good friendship among domestic servants. In many instances young men and girls go to strange cities and towns to work. If they are members of the club, said Miss Leigh, "they are assured of meeting their fellow-members of either sex. In this way loneliness is banished and friendships spring up. This makes for happiness and the members are much more contented in their work."

The London group has no headquarters. They always meet under the arch at Hyde Park Corner. Only domestic servants—rich hotel employees—are eligible to join. The fee is one shilling to join and half a crown a year.

SELECTED RECIPES

CHICKEN PIE (Shredded Wheat Crust)

About 3 cups finely crumbled Shredded Wheat (4-5 biscuits).

Two medium-size stewing chickens, boiling water to cover.
2 teaspoons salt
1/4 teaspoon pepper
1 peeled small onion, sliced
1 small piece bay leaf (if desired)
Flour to thicken
1 cup cooked or canned peas
1 cup cooked or canned lima
1/2 cup melted butter

Order chickens cut up as for fricassees. Add the boiling water, salt, pepper, onion and bay leaf; cover and simmer gently until tender, replenishing water as necessary. Strain the stock and thicken it with flour mixed to pouring consistency with cold water. Remove the stock from the bonny piece. Arrange a thin layer of the Shredded Wheat crumbs in a greased baking dish. Arrange the chicken—both the whole pieces and that removed from the bones—in alternate layers with the vegetables. Fill up the dish to within half an inch of the top with the thickened stock. Mix the remaining crumbs with the melted butter and spread in a thin layer over the top of the chicken and vegetables. Bake in a hot oven of 400 degrees F. for 30 minutes or until bubbling hot and delicately browned. Serve S.
Serve with a large green salad and a fruit or frozen dessert.

SWANS DOWN WAFFLES

2 cups sifted Swans Down Cake Flour
2 teaspoons Calumet Baking Powder
1/2 teaspoon salt
3 egg yolks, well beaten
1 cup milk
4 tablespoons melted butter or other shortening
3 egg whites, stiffly beaten
Sift flour once, measure, add baking powder and salt, and egg yolks. Combine egg yolks, milk and butter; add to flour, beating until smooth. Fold in egg whites in two batches. Bake in waffle iron. Makes four 4-section waffles.

Just A Novelty

Stage Coach Carries Passengers From London To Hampton Court

There are those who like the old ways, even if only for novelty's sake. That's probably why Sidney Truett, who in 1890 drove a stage coach, with four-in-hand, regularly from London to Dorking, is now giving a similar service from fashionable Park Lane, London, to Hampton Court. Daily the coachman's horn blares out over Hyde Park announcing that the coach with its load of passengers is on its way. The four horses are changed at Richmond, as in olden times. The fare for the two-and-a-half hour run is 12 shillings and sixpence a head.—St. Thomas Times-Journal.

Purchaser Decides

Not so many years ago it took three paragraphs on a label of a can of sardines to tell the customer how to open it. Nowadays, with new gadget containers coming on the market every week there is hardly a manufacturer who doesn't leave it to the purchaser to decide whether he should try to bite it open or use a crowbar, says the Brandon Sun.

During the first 10 months of 1935, the world consumed 168,000,000 pounds of nickel in all forms.

The life span of bees ranges from three weeks to eight months.

Nineteen people died in a recent heat wave in Allahabad, India.

"WE ALL AGREE ON SHREDDED WHEAT"

SHREDDED WHEAT

MADE IN CANADA - OF CANADIAN WHEAT

The Weekly Newspaper

Confidence Is Expressed In The Future Of The Country Press

Confidence in the future of the weekly newspaper in Canada was expressed by M. Lyle Spencer, director of the School of Journalism, Syracuse, N.Y., in an address before nearly 300 delegates to the 20th annual convention of the Canadian Weekly Newspaper Association at Niagara Falls.

"If there is any field of publishing in which I have confidence to-day, it is the weekly newspaper," said Mr. Spencer, pointing out that a decrease in recent years in the number of daily newspapers in Canada and the United States had been accompanied by a noticeable increase in weekly publications.

Mr. Spencer stressed the need for a social consciousness among publishers in their work, which was a "sort of public utility." He deplored the practice among some publishers of filling vacant space in their papers with "hurry-up" advertising about the publisher's own business.

Frank B. Hutchinson of Syracuse, N.Y., said much of the mutual respect existing between Canada and the United States was attributable to the "hundreds of newspapers, large and small, which were close to the people."

"These newspapers are free and intelligent," said Mr. Hutchinson. "They are free to print what they please and intelligent enough to print the truth. Our two countries will remain friendly and peaceful as long as our press remains free, fair and intelligent."

Mr. Hutchinson said the day was approaching when Canada and the United States will "occupy the world stage for power and culture, when we will be in the centre of protection of world civilization. He said the real test would come when the two countries, "growing in numbers and world importance, come to clash more frequently in commerce, power and world influence."

Lamb Taken To Zoo

Was Present From Canadian Woman To Royal Princesses

"Miss Lusitania", a sleek Canadian black lamb who eats cake and drinks coffee although she is only four months old, arrived in London to visit Princesses Elizabeth and Margaret Rose but wound up in the pet's "Miss Lusitania", a gift to the corner at the Regent's Park Zoo. Princesses from Mrs. Rosa Brown, 60-year-old Great War widow of Kirkland Lake, Ont., landed at the Surrey Commercial docks and was taken to the zoo in a truck where she was delivered in the name of the Princesses at the request of Queen Elizabeth.

The steel industry consumes 8,000 grams of platinum in an average year; the platinum is put to 10 different uses in the industry's chemical laboratories.

The steel industry spends approximately \$10,000,000 a year in research work.

Gives Balanced Diet

Scientists Claim Soy Bean Is Greatest Protective Food

Nutrition experts at the Pacific Science Congress in Berkeley, Calif., described the soy bean as one of the greatest potential protectors of the poor against hazards of unbalanced diets and vitamin deficiency.

Dr. A. A. Horvath of the University of Delaware asserted processed whole soy flour "should to-day be placed at the head of the list of protective foods of high nutritional value, available to the masses at low cost."

He said the soy bean contained 40 per cent. of high grade protein, 20 per cent. oil, two to three per cent. of phosphate substances, a liberal supply of calcium, iron, copper and vitamins B-1, B-2 and K.

Cheap German automobiles are competing with American cars in Venezuela.

A doctor for each 1,000 people is the aim of the Soviet Union.

DANZIG NAZIS ARE PREPARED TO TAKE FREE CITY

Danzig.—The Nazi leader in Danzig, Albert Forster, at a vast outdoor protest meeting, hurled defiance at Poland, and appealed to citizens of other countries aligned against Germany, to prevent a war—but gave no hint of the plans of Chancellor Hitler.

The fiery spokesman, who hastened back to Danzig, with full knowledge of Hitler's views gained in long interviews, declared, however, that "Poland may rest assured" Germany and the fuhrer "are determined in the event of attack to stand at our side."

As for Danzig, he asserted, the free city was prepared to defend its rights "with its blood."

Forster spoke at a huge gathering in Langer market place, amid the spotlights, loudspeakers and color of a typical Nazi rally, with the old Nazi refrain, "One People, One Reich, One Fuhrer!" ringing in his ears.

But if Forster gave no hint of Hitler's plans he left no doubt of his ultimate intentions.

"The Danzig population," he declared, "believes implicitly that the hour of liberation is coming and that the free city will return to the Reich."

"The Danzigers look with special veneration upon their fuhrer, Adolf Hitler. They are convinced he will fulfill their wish, and thereby again give the right of self-determination that place which has been denied it since 1919."

"My beloved Danzigers, in this hour we cannot do anything better than to pledge solemnly to stick together, come what may, that we shall ward off every attack upon this sacred soil determinedly, with the weapons at our hands and that we shall execute every command of our fuhrer unquestioningly."

"May the day not be far distant when we convene here not for a protest meeting, but to celebrate the reunion of Danzig with the Reich."

Forster's main theme was an indirect appeal to citizens of Great Britain, France and United States to recognize that "Danzig is German."

The argument to which he returned again and again was that there was no sense in sending English and French youths into battle to save Danzig for Poland when, according to the German contention, the city belongs historically and by choice to Germany.

Harvest Help

Five Thousand Extra Men To Be Employed On Prairie Farms

Winnipeg.—Five thousand men—in addition to full-time workers employed on prairie farms—will be given employment in harvesting western Canada's 1939 crop, according to a survey completed by the Winnipeg Free Press.

Manitoba farmers will employ possibly slightly more than 1,000 men while the remainder needed to harvest the crop will be about equally divided between Saskatchewan and Alberta.

There is no shortage of labor, the survey shows, as there are many men in urban centres and transients to meet the supply.

"There are plenty of men in the west to take care of the needs of the farmers this harvest," said James Nesh, superintendent of the Employment Service of Canada in Winnipeg. "There is no need to bring men from the east."

Wages for field workers range from \$1.50 to \$2.50 a day, although in a few districts where crops are good slightly higher rates are offered. A top of \$5 a day is indicated at a few Alberta points where experienced men for operating combines are needed.

Youth Training

Thirty Per Cent. Taking Course Have Secured Employment

Ottawa.—Practically 30 per cent. of the youths taking the Dominion-provincial training courses intended to lead to employment last year were placed in employment, according to a review issued by the department of labor.

In the year ended March 31 last, 15,878 youths took such courses and 4,747 were placed in employment. In other training projects, 55,934 other young men and women were enrolled, 31,676 in agricultural and rural training courses and 24,258 in physical training courses.

British Columbia topped the list in numbers taking courses with 21,938. Next came Quebec with 17,352; Alberta, 10,714; Saskatchewan, 9,848; and Manitoba, 5,292.

U.S. Immigration

Quotas Filled For Those Fleeing From Racial Persecution

Washington.—An immigration wave is swelling against the dams of the United States Immigration Act as panic-stricken hundreds of thousands flee racial persecution in central Europe and the shadow of war.

Some countries' immigration quotas are filled for hopeless numbers of refugees. From Hungary, for instance, an applicant for a United States immigration visa, although accepted, may have to wait 25 years or more.

Countries whose backlog of applicants under immigration quotas are piled especially high are all central European, affected by some form or threat of anti-Semitism. They are Germany, Czechoslovakia (the old Czechoslovakia now absorbed by Germany but whose quota has not yet been merged with that of Germany), Hungary, Poland and Roumania.

Although the German quota is 27,370 a year, 298,000 applicants for quota visas had registered at American consulates at the end of the fiscal year, June 30. Ordinarily this would mean the German quota is already filled for 11 years. But more than half the applicants are rejected on physical, mental or other grounds. Even so, the quota is filled for more than five years to come.

In Poland applicants now number 114,000, compared to a quota of only 6,524. However, percentage of rejected applications from Poland is higher than from Germany.

Most plentiful situation perhaps of all exists in Hungary, where 30,000 have applied under an annual quota of only 869.

Passenger Service Cut

Imperial Airways Affected By Government's Rearmament Program

London.—Imperial Airways announced a "substantial" reduction in passenger accommodations on its empire routes because of personnel and equipment shortages resulting from the government's vast rearmament program.

A statement issued by the company explained the decision to reduce passenger accommodations had been reached with the "greatest reluctance" and was due to factors beyond their control.

"Owing to the high standard demanded of the staffs, most of the trained pilots hitherto have been recruited from the Royal Air Force. Conditions are now so abnormal and restrictive that they make recruiting of pilots from the air force virtually impossible. In addition Royal Air Force demands are met from various flying schools with the result the company now is confronted by formidable difficulties in obtaining a staff that is wholly or even partially trained."

Menace To Eskimos

Canada's Western Arctic Population Depleted By Diseases Of Civilization

Edmonton.—Diseases of civilization, notably tuberculosis, have brought a definite and serious downturn to the Eskimo population of Canada's western Arctic. Rev. H. R. Rockey-Thomas, Anglican missionary at Cambridge Bay on Victoria island, 1,500 miles north of Edmonton, declared here.

The missionary and his wife have begun "outing" for a year's tour after spending five years along the Arctic coast, travelling hundreds of miles by dog team and boat to care for 750 Eskimos. They fit for the Pacific coast and later will go to the Old Country to visit the missionary's home in Wales.

Hoppers In Ontario

Invasion Of Province This Year Said To Be Unusual

Toronto.—W. R. Reek, Ontario deputy minister of agriculture, said abundance of grasshoppers in the province this year is unusual.

"There is no doubt about the grasshoppers being prevalent," Mr. Reek said. "But I do not think it could be called a heavy plague."

Albert Chalmers, Kitchener district farmer, said he never had seen so many grasshoppers on his property in 30 years of farming as this year.

Nascope Leaves Churchill

Churchill, Man.—R.M.S. Nascope sailed Aug. 8 on the second leg of her annual trip to the far northern Hudson's Bay Company posts and Royal Canadian Mounted Police detachments along the shores of the Arctic ocean as far north as Fort Ross, most northerly point on the continent, approximately 1,000 miles due north of here.

Pace Too Fast

Scottish Women Tourists Not Gearing To Our Way Of Living

Toronto.—The 58 Scottish farm women against eastern Canada under the auspices of the Scottish Rural Women's Association, think "ours are terrible" and they want to know "whether Canadian women ever slow down."

"We're not geared to your way of living," one of them said here. "Canadian women seem to think nothing of doing a couple of hundred miles at a time. Why, we think a motor trip of 50 miles is something out of the question."

Most of the Scottish women, who came to Canada to learn about Canadian farming and Canadian home life in the country, said they didn't get much time to use little notebooks brought along with them.

"We'll need a whole month in bed after this trip," another of the visitors said. "Canadians are noted for their hospitality, but I'm afraid it's a case of killing with kindness."

"I don't know how the King and Queen ever stood it," said one of the party, which has been entertained at many Ontario points in the past two weeks by women's and farm organizations.

Bomb Explodes In Launch

British Police Sergeant Killed And Two Others Injured

Haifa, Palestine.—A British police sergeant was killed and two constables were injured when a time bomb exploded aboard a new patrol launch cruising off Haifa. Three others escaped by the boat sunk.

The launch had been keeping watch on a Greek ship hovering outside territorial waters in an attempt to land Jewish refugees from Europe.

Three Jews were killed and two wounded when a land mine exploded under a truck near Ekron.

AGREEMENT IS REACHED ON U. S.-CANADA AIRWAYS

Ottawa.—General agreement on artificial boundaries would be permitted to affect international air transportation services was reached by United States and Canada government officials at a conference on air transportation.

Representatives of both governments agreed there should be "some give and take," respecting international boundaries as far as air lines are concerned, it was reported after the session.

Transport Minister C. D. Howe and high Canadian post office department officials head the Canadian delegation, while United States legation officials here have been joined in the conference by a Washington delegation of state department, post office and civil aeronautics authority officials.

It was understood Canadian delegates suggested both U.S. and Canadian air line operators be permitted considerable latitude in scheduled air line services in a zone roughly 100 miles on each side of the international boundary, and that scheduled lines joining Canadian and U.S. cities be operated on alternate days by Canadian and American air lines.

The Canadians, it was reported unofficially, pointed out that in general, U.S. operators enjoyed more franchises to operate lines into Canada than the Canadian companies had in return to U.S. territory. Canada will ask for an "even exchange" of such privileges, it is believed.

NEW BRITISH COMMANDER

At Churchill

Lieut.-General Sir A. P. Wavell, who has been appointed to command the British land forces in the Middle East.

Tension At Tientsin

Belgian, Mistaken For Briton, Is Beaten By Japanese Soldiers

Tientsin, China.—H. McClure, the first British subject Japanese officials have tried to search since the opening of Anglo-Japanese negotiations at Tokyo, established a precedent here by firmly refusing to submit.

McClure, an architect, told the Japanese he would permit nothing more than an examination of the contents of his pockets. After a brief altercation he was permitted to pass the barrier into the blockaded British concession.

At Peltaso, according to word received here, Japanese soldiers beat and kicked D. Cummings, a Belgian, as he alighted from a train. He was mistaken for a Briton, the dispatch said.

The anti-British committee at Peltaso ordered Chinese shopkeepers to double the prices on goods sold to Britons. Restrictions at the barriers to the British and French concessions grew more severe, side by side with the growth in intensity of the anti-British campaign.

"Our patience is not without limits," said a Japanese garrison communique, discussing the delay in the Tokyo negotiations which were to settle the Anglo-Japanese dispute here.

Seek Pilots From Canada

British Commercial Flying Firm Looking For Recruits

Ottawa.—Since increased Royal Air Force recruiting has depleted the reserve supply of pilot material for Imperial Airways Ltd., the British commercial flying firm has been looking for keen young pilots in Canada.

Announcement in London that passenger accommodation on empire routes of Imperial Airways would have to be curtailed because of shortages of machines and pilots recalls the request the New York office of Imperial Airways made last spring to Canadian Flying Clubs Association headquarters here for assistance in recruiting Canadian pilots.

A number of Canadian pilots have been making excellent reputations for themselves and Canada at the controls of Imperial Airways liners.

May Start New Search

Sydney, Australia.—A new search for traces of Sir Charles Kingsford-Smith, lost off the coast of Burma in 1935, may be made by the new English-made Royal Australian Air Force "flying fortresses" on their way to Australia for delivery. The Australian minister for civil aviation said he was making this suggestion to the defence minister.

Not An Official Visit

Lord and Lady Tweedsmuir Met Son At Churchill

Churchill, Man.—Lord and Lady Tweedsmuir, their sons, John and Alastair Buchan, and other members of the governor-general's party left for Prince Albert, Sask., after a three-day visit during which they inspected historic sites and modern grain-handling facilities of this Hudson Bay port.

Their Excellencies arrived to welcome Hon. John Buchan on his arrival aboard the supply ship Nascope following a year in the Arctic in the Hudson's Bay Company's employ. It was more of a family reunion than an official vice-regal visit here.

Weather was nearly perfect during the vice-regal visit and members of the party were active with cameras. Eskimos and Eskimo dogs and the large number of white whales in the Churchill river were the most popular camera subjects.

Ban Foreign Publications

Britain Keeping Close Watch On Papers Criticizing Its Institutions

London.—It was learned that the refusal of the Wholesaler News Agents' Federation to handle the American magazine Time is the beginning of an unofficial censorship of foreign publications.

It was reported that members of the federation are concerned over the freedom with which many foreign publications criticize British institutions and personalities and comment on British royalty, as well as foreign personalities. The federation is keeping close watch on all foreign publications being sold in England.

Hitherto, the federation's refusal to handle certain publications has been due to fear of libel. This is the first time that political considerations have influenced its policy.

Lightning Left Imprints

Perfect Forns And Leaves Found On Boy Who Was Killed

Montreal.—Perfect imprints of forns and leaves were left on the chest, arms and legs of Ben Oliver, 17-year-old telegraph boy killed when lightning struck near him in a storm. Dr. Rosary Fontaine, medico-legal expert, said, "In all my years of experience I have never seen such marks," said Dr. Fontaine. "I have heard of them but never actually seen them."

SAYS YUGOSLAVIA IS DETERMINED TO REMAIN NEUTRAL

Belgrade, Yugoslavia.—Yugoslavia has refused German and Italian demands for use of her railroads and axis supervision of her economic and military centres in event of European war, it was learned.

With full support of Great Britain and France, Premier Dragisa Cvetkovich will fly to Italy in a Yugoslav army bomber, it was said, to tell Italy's leaders bluntly that Yugoslavia is determined to maintain strict neutrality even if it is necessary to use her arms to do so.

Germany and Italy were said to have described their proposals as a form of "benevolent" neutrality.

Besides use of Yugoslavia's railroads and supervision of her economic and military centres in wartime, it was said the German-Italian demands would give them complete access to all Yugoslavia's war materials and foodstuffs in case of war.

Use of her railroads, besides giving them rail connections through the Yugoslav province of Slovenia, in addition to those they already have through Brenner pass, would give them troop transportation in any advance toward Roumania and the east.

(While Premier Cvetkovich was preparing to journey to Italy, it was learned in Budapest that Count Stephen Casky, foreign minister of Hungary, northeastern neighbor of Yugoslavia, had arrived at Salzburg where he is a guest of the German foreign minister, Joachim von Ribbentrop.)

Prince Paul, senior agent of Yugoslavia, who has explored the axis demands to the British and French governments during his recent trip to London and Paris.

Authoritative sources said Britain and France told the regent they would back Yugoslavia in case she came into conflict with the Rome-Berlin axis, for her surrender would mean a staggering blow to Roumania, Greece and Turkey, which have joined the British-French front or have been included in it by British-French guarantees of their independence.

SURVEY IS MADE OF THE WESTERN WHEAT CROP

Winnipeg.—Possibility of western Canada harvesting a wheat crop from 380,000,000 to 390,000,000 bushels—the largest since 1932—is indicated in a crop survey published by the Winnipeg Free Press.

The crop has passed through a critical period during the past three weeks due to abnormal heat but recent showers and cooler weather have checked deterioration. Continuous favorable conditions, would mean the largest crop in seven years.

The forecast, however, is tentative only, explained the report, and is dependent on the late crops in northern Alberta and Saskatchewan escaping the frost hazard and barring further deterioration from recurring heat waves.

In the face of many vicissitudes prospective yields indicate Manitoba and Alberta may harvest crops comparable to last year's good yields, while Saskatchewan's outlook should be above that of a year ago, the report said. The recent heat and drought, however, have cut the wheat crop 34 per cent. from estimates made three weeks ago.

Harvesting is fairly general in Manitoba, has just started in southeastern Saskatchewan and extends westward into southern Alberta.

Manitoba—Wheat is reported filling good at 14 per cent. of the reported points; fair at 64 per cent., and poor at 22 per cent. However, suggested yields range from seven to as much as 30 bushels per acre, with considerable variation indicated in an early report. All reporting points, but one, mention damage. Heat and drought have been the chief causes of damage. Hail and grasshoppers have taken a toll at scattered points, while loss from rust has been insignificant.

Saskatchewan—Wheat is filling good at about 13 per cent. of the stations in Saskatchewan; fair at six per cent., and poor at 31 per cent., with indicated yields ranging from one to 15 bushels per acre. The southern portion of the province and from 10 to 28 bushels per acre in the northern half. In the southeastern part of the province few yields in excess of 10 bushels per acre are suggested. Saskatchewan's crop has suffered most from heat and drought. Grasshoppers, hail, frost, wind, worms and weeds caused some damage.

Alberta—Wheat filling in Alberta is comparable with Manitoba, with 10 per cent. good; fair at 64 per cent., fair and 26 per cent. poor. Tentative yields range from eight to 40 bushels per acre, with the majority varying from 10 to 25 bushels. Practically all reporting points indicate damage anywhere from slight to 80 per cent. Frost, hail, hoppers and worms have damaged crops at isolated points. Only one station mentions a trace of rust.

The Danzig Issue

Polish Ambassador Says It Would Require Miracle To Find Solution

Washington.—Count Jerzy Potocki, Polish ambassador to the United States, said it would require a "miracle" to find a solution to the European crisis resulting from the Danzig issue.

He reported to Sumner Welles, acting secretary of state, shortly after his return from Poland.

"If we can get by until Oct. 1, there will not be war before next spring," he told reporters. But he would not name any odds on Europe's ability to "get by" until Oct. 1.

He said he did not think the tension abroad "can go on indefinitely without war."

"This is the time for Hitler to act if he ever intends to do so," he said, "because by next spring the coalition against him will be so strong that the initiative will be taken away from him and he held by Great Britain."

He thought it possible the Danzig senate might one day decree Danzig to be German, but said this would be a signal for Poland and France, who were confident Britain and France would immediately join her.

Banned From Italy

Rome.—Time magazine has been banned from Italy until further notice on account of an article in the issue of July 24 about Countess Edda Ciano, daughter of Premier Mussolini and wife of Foreign Minister Count Ciano.

Population Of India

Simla, India.—The population of India is expected to exceed 400,000,000 by March 1941, when the seventh all-India census is to be held. An increase of 47,000,000 in the last 10 years may be revealed.

FRENCH CANADA DISCUSSES M.R.A.

Roger Belanger, son of the dean of French-Canadian members in the Ontario Legislature (left), and Payson A. Sherman, one of the eight English-speaking M.L.A.'s in Quebec, talk of Canadian unity at the World Assembly for Moral Re-Armament in Del Monte, California.

Tomorrow, Saturday, will be one of the biggest pay days in the history of Blairmore and Bellevue, twelve shifts.

A brace of grouse, shot in England on Saturday, were delivered to President Roosevelt at Washington on Sunday night.

BLAIRMORE Forty-Five Years in the Business. ALBERTA

Ferne will stage a big celebration on Labor Day.

We were down at the court house on Wednesday to see the other three monkeys.

Some fine catches of fish were brought in from the North Fork on Wednesday evening.

Mr. and Mrs. A. L. R. Davidson have been on holiday and are due to return home this week end.

John Dow, 61, branch manager of the Alberta Government Telephones, died suddenly in Calgary on Wednesday.

E. O. Duke, M.L.A.; Roy C. Taylor, M.L.A., and J. H. Blackmore, M.P., spent the greater part of the week in this district.

A thousand windows have been broken in Edmonton schools during the summer recess thus far. Not one school in the city has escaped.

E. G. Hansell, M.P., accompanied by Mrs. Hansell, of Vulcan, were in The Pass the greater part of the week, registered at the Greenhill hotel.

Newspapermen were not permitted to attend a Social Credit nomination meeting at Sturgeon Falls, Ontario. Why should they be—they're a terribly bad lot, as Aberhart can vouch.

Mr. and Mrs. John McPhail returned Wednesday evening from a holiday spent mostly in Montana. They were accompanied to Great Falls and back by Mr. D. R. McKay.

It's an ill wind that doesn't blow somebody some good. Through such a breeze last evening we swallowed the fumes from a bakery—the biggest feed we have had for a long while.

Luigi Denotaris, who recently moved to Coleman, is obliged to take out a license in the sum of \$25 before being allowed a shoe repair establishment. Coleman council has a cobbler in its personnel.

Mr. and Mrs. W. G. Pearson have had as their guest for several weeks their youngest daughter, Mrs. Smith, with her daughter and son, of Seattle. Mrs. Smith was formerly Miss Marguerite Pearson.

Editor H. T. Halliwell returned to Coleman on Tuesday night from Niagara Falls, Ontario, where he attended the annual convention of the Canadian Weekly Newspapers' Association, of which he had the honor of being elected president. Mr. Halliwell also attended the World's Fair at New York. He was accompanied on the trip by his daughter, Miss Audrey.

Local and General Items

The Editor will be glad to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, showers, presentations, anniversaries, etc. Phone items in to 11 or hand them in at The Enterprise office not later than Thursday evenings.

Bible Punching Bill has a new book to hammer at.

Miss Doris Sartoris is away on holiday in the western States, accompanied by Coleman friends.

Mr. Watkins, of the fisheries department, Edmonton, was in The Pass on Thursday of this week.

It will soon be time for the United States to demand back some of their experts borrowed by Alberta.

Work of placing the finishing hand surface on Coleman's main street is proceeding rapidly under the supervision of Contractor J. S. D'Appolonia.

Mr. and Mrs. A. D. May, of Medicine Hat, have been holiday visitors with relatives and friends in Bellevue, Blairmore and Coleman.

Miss May Powell, former Coleman high school teacher, has been visiting Pass friends and was in Blairmore on Thursday night of last week.

Fred Goddard relinquished the post of chief of Blairmore police on Monday evening of this week. His successor will take over the work in the course of a few days.

During the past week a number of ratepayers have called at The Enterprise office enquiring why there has been no publication of notice of preparation of town and school district assessment rolls.

We received a card on Wednesday from a Blairmore couple who are touring the States. They claimed they were stuck in a Denver, Colorado, beer parlor, where beer was only ten cents a pint. Cheerio!

Pat Owen, of the Royal Bank staff, is having his fortnight's holiday. He spent the latter part of last week at Spokane, where he attended the final session of the Columbia Cavalcade. —Cranbrook Courier.

The infant daughter of Mr. and Mrs. Laurence Picard was baptised at the home of Mr. and Mrs. J. E. Upton, of Blairmore. Miss Miller was one of the company of recent Trail Riders to enjoy the skyline ride through the Canadian Rockies.

Miss Leola Miller, of Bowmanville, Ontario, is spending a few days visiting at the home of Mr. and Mrs. J. E. Upton, of Blairmore. Miss Miller was one of the company of recent Trail Riders to enjoy the skyline ride through the Canadian Rockies.

Speaking at the testimonial dinner to Prime Minister King at Toronto, Premier Pattullo, of British Columbia, said he was pleased that conditions on the west coast are prosperous and likely to remain that way. "I do not think it is just a momentary spurt, but a change to permanently better economic conditions," he said. The coastal premier added that he would like to see more immigration, adopted as a national policy. People are still needed in the Dominion, but they must be selected and must be scattered where they arrive.

The Macleod federal constituency will have a woman candidate in the next election. Mrs. Ruth McBride, of Arrowwood, has been nominated by the C.C.F. at a well attended meeting at Carmangay last week, when a permanent organization was formed to function for the party. A. H. Rowe, of High River, was chosen president; Mrs. McBride, vice-president; O. E. Woblick, of Barons, secretary; and the following directors: Mrs. B. B. McLeod, High River; J. A. Wickens, Cayley; Alex. Macmillan, Carmangay; Mrs. Wilson, Oldfield, Vulcan; Mrs. Vilas Teskey, Carmangay; H. West, Lomond; J. E. Peterson, Claresholm; Miss Doris Peterson, Woodhouse; Mrs. C. L. Booth and D. Donald, Lomond, and P. Ukrainetz, Crows' Nest Pass.

Ken Ringland was up from Lethbridge during the week.

Mrs. Watson, of Calgary, is a holiday visitor here with her sister, Mrs. A. Gibau.

Mr. and Mrs. Ed. Donkin and daughter, of Frank, are away on a two weeks' holiday.

Mr. and Mrs. Finlay McLaren are leaving by train today on an extended visit to points in Ontario.

Mr. and Mrs. Hartley Upham returned Friday last from a holiday of three weeks spent in the Nelson, B.C., district.

Miss Shirley Bannan is to leave shortly for Vancouver, where she will enter St. Paul's hospital as nurse-in-training.

Rev. and Mrs. A. S. Partington and daughters Frances and Mary arrived back to Creston last week from a holiday spent in Winnipeg.

We suffered from breaches of promise thirty years ago, when a railway up the South Fork and an electric railway for The Pass were promised.

Calf clubs formed by the young people of the Maritime Provinces and elsewhere serve a far different purpose to that attributed to the rolling pin.

G. Karp moved his family up from Lethbridge over the week end. They have taken up residence in the house recently vacated by Mr. and Mrs. W. A. Vaughn.

Frank C. Lowe, on completing twenty years in the service of the Canada Life Assurance Company, was honored at Calgary on Monday by members of the company at a banquet in the Empress hotel.

A quiet wedding took place in Blairmore on the evening of August 7th, when Miss Margaret, daughter of Mr. and Mrs. John Fleming, of West Ferne, was united in marriage to Mr. Harry Tymchuk, also of Ferne.

The charge preferred against a Hillcrest resident of obstructing a peace officer in the discharge of his duty, to a game guardian, was dismissed without costs by Magistrate Gresham in local court on Thursday morning. The charge was laid by Joe Cardinal, game and fish warden at large. The accused was defended by F. O. McKenna, of Pincher Creek.

Cecil Johnson, B.Sc., of Blairmore, has acquired the Taber Drug Store from Mrs. Amy E. Falconer, who has found it necessary to relinquish the business on account of ill health. Mr. Johnson plans to carry on the business in the same way it had been run formerly. Cecil is a graduate of Alberta University and taught there for one year. He is a native son of Taber, his father having been active in the operations of the big mines there in the early days.

Ferne will on Saturday lose one of its best citizens in the person of Mr. Cecil Anderson, manager of the local branch of Macdonald's Consolidated. Mr. Anderson has been promoted to the management of the branch at Medicine Hat. For many years Mr. and Mrs. Anderson have been good citizens of Ferne and have always been very active members of its community life. Cecil took a keen interest in local Masonic and Oddfellows organizations and has served in the chairs of both lodges. In United church circles Mr. and Mrs. Anderson will be sadly missed. On Thursday evening Mr. Anderson was guest of the employees of Macdonald's Consolidated at a banquet in the Northern Hotel, when he was presented with a beautiful gift as a token of the esteem in which he is held by the men who served under him—Ferne Free Press.

Mr. and Mrs. A. M. Burnett, of Nelson, are visitors with friends here. Born to Mr. and Mrs. W. H. Chapell, junior, on January 17th, 1916, a daughter.

Shirley Temple, of Hollywood, registered at the Cosmopolitan hotel last week end.

As we predicted, the Aberhart tour of the province was made without a visit to or mention of his own riding.

Miss Yvonne Harrison, of Hillcrest Station, has been a holiday guest of Mr. and Mrs. D. A. Perry at Strathmore.

Mr. and Mrs. S. J. Lamey left the early part of the week on their annual holiday, to be spent at Pacific coast points.

Now, since that big book has been displayed on several soap boxes in Southern Alberta, Aberhart is classed as an author.

The question is being asked: "Who'll take the mayor's place when he moves to Edmonton?" One guy remarked: "We'll sure be needin' a new mayor!"

Word comes from Spokane that Mr. Corrie Celli, son of Mr. and Mrs. Frank Celli, of Creston, has been appointed to the staff of the Don Casey School of Music.

Mrs. J. M. Windsor and two daughters returned to their home in Cranbrook, following a visit of two months with relatives at Toronto, Sarnia and other eastern cities.

Apparently Blairmore's speed limit of 20 miles an hour varies from fifteen to seventy. Signs such as "Roads under repair," "school," etc., seem to be unnoticed by some tourists.

One of the most prominent Labor leaders of Western Canada, Angus J. Morrison, secretary of District 18 of the U. M. W. of A., is expected to be an anti-Social Credit candidate in the mining district of Edson in the forthcoming provincial election. He would oppose J. H. Unwin, Social Credit whip.

Twenty-three and a half years ago a branch of the Returned Soldiers' Bureau was organized in Blairmore, with D. A. Sinclair, chairman; W. Joyce, secretary, and the following committee: J. Angus MacDonald, Mrs. W. Howe, W. J. Bartlett, J. Charbonnier, Mrs. J. M. Carter, Mrs. J. R. Smith and H. E. Lyon.

A lion escaped from a circus menagerie in a western town. The sheriff swore in a posse of special police to capture it. Before starting out, he invited them to have a drink of whiskey, which all took except one—a German. "Aren't you having a drink, Hans?" asked the sheriff. "No," was the reply. "Why not?" "It gifts me too much courage."

For duck hunting the province is being divided into three sections, that north of Athabasca and Clearwater rivers open September 7 to November 7; from Clearwater south to the north boundary of township 29, season September 15 to November 15; from Calgary south, mid-day September 29 to November 25. The use of automatic loading or pump guns is prohibited unless the magazine has been plugged or altered so that it cannot carry more than one cartridge at a time, with another in the breech. Guns larger than 10 gauge are also prohibited.

Premier Angus MacDonald of Nova Scotia secured his first breath of Alberta's air on Sunday and Monday, enroute to the Pacific coast by plane in company with Hon. C. D. Howe, federal minister of transport, and J. G. Turgeon, member of the house of commons for Carleton Place, Ont. The party spent about twenty hours in Calgary. On his visit, Hon. Howe announced that the new Lockheed 14 planes would be installed on the Edmonton-Lethbridge line of Trans-Canada Air Lines within the next two weeks. The new 12-passenger planes will replace the 8-passenger planes now in use. Premier MacDonald is a brother of His Honor Judge W. A. MacDonald, of Calgary.
